## SKILLS

## PERSONAL PROJECTS

- Youtube Clone**
  - Built a React-based YouTube clone using Material UI and Rapid API, demonstrating expertise in front-end development. The project features a responsive design for optimal user experience, sleek visuals with Material UI, and real-time data integration through Rapid API.
- Memories App**
  - Built a Memory App using React, Node.js, Express, MongoDB, Mongoose, and JWT for secure user authentication. The app enables users to manage, reminisce, and organize their memories through a responsive and scalable platform.
